**I am working at: State of

This is a success for me

because: I am very proud that I

have a chance to work with a nationally recognized leader and innovator. FTB is a great place to build the professional career – to learn, to achieve, and to grow.

One piece of advice I would give a current RU student about the job search is: to go to all available job fairs and network, network, network. Talk to people, get noticed! Believe me, they will remember you. My initial contact with FTB happened during the Government Job Fair at Roosevelt university. I did it and you can do it too!
