DEAN'S MESSAGE:
ONWARD AND UPWARD

TERRI L. FRIEL
Dean

We’ve moved! The Heller College of Business Chicago site is now housed completely in the new Wabash Building. We are very proud of the facilities, which include high-tech classrooms, incubator sites for students and small businesses, wonderful meeting spaces and the new Marshall Bennett Institute of Real Estate. This is the first time the dean’s and real estate offices have been together in nearly a decade and the first time all faculty have been together on the same floor. This will foster the community feeling vital to student retention and collaboration in research. Please consider visiting us for an event (a list of events open to the public and alumni are listed at the back of this newsletter). We’re excited to launch the academic year with our sparkling new facilities and look forward to showing them off!

DRESS FOR SUCCESS EVENT

This spring we had the honor of hosting six young women from La Sorbonne who are studying international marketing. At a special evening event, professional search consultant Ava Youngblood and French clothing designer Guy Haj discussed how professionals dress in the United States and the differences between the formal attire expected in France and the more informal dress in this country. We invited all Heller College students to join us, and all enjoyed hearing Guy Haj, professional wardrobe designer at Haj Designs, speak to these differences.

INTERNATIONAL TRIPS: FRANCE AND POLAND

HELLER HOSTS ACBSP REGION FOUR CONFERENCE AT SCHAUMBURG CAMPUS

The Heller College of Business will host the Accreditation Council for Business Schools and Programs (ACBSP) Great Lakes Council Region 4 Conference on October 4 and 5, 2012. Members from Illinois, Indiana, Minnesota, Michigan, Ohio, Wisconsin, and Ontario will join Heller College at the Schaumburg Campus for the event, themed Sustainability and Corporate Responsibility in Higher Education Institutions. The ACBSP is a leading specialized accreditation association for business education supporting, celebrating, and rewarding teaching excellence.
At the spring 2012 Signature Luncheon, Heller College hosted Harry Markopolos, the whistle-blower for the Bernard Madoff investment scandal, and honored Joseph Ament for his 45 years as a Heller College accounting faculty member.

Mr. Markopolos spoke about his efforts to expose Mr. Madoff for activities not understood by the Securities and Exchange Commission for a decade—until Mr. Madoff was exposed by the financial crisis. Mr. Markopolos also met with students who had viewed the movie Chasing Madoff and spoke about his experiences as a fraud examiner. After the luncheon Mr. Markopolos signed No One Would Listen: A True Financial Thriller, his book detailing his pursuit of the greatest financial criminal in history and the massive fraud, governmental incompetence and criminal collusion that has changed thousands of lives and the world’s financial system.

Dr. Ament has extensive experience in financial, estate and income tax planning; business mergers and acquisitions; and entity structures. He spoke of his 45 years with the University, where he has taught taxation, estate planning, accounting for executives, and business ethics courses. He thanked his professors, several of whom were in the audience. Many family and friends, alumni and students of Dr. Ament were on hand to honor him as well.

For several years now, Diverse: Issues in Higher Education has named the Top 100 Degree Producers rankings of the institutions that confer the most degrees to minority students. Roosevelt ranks 56 out of 100 top minority-producing graduate schools. Here are specific ranks by program (total minority):

STUDENT SUCCESS STORY: CHANNING HARRIS

This summer, senior human resource undergraduate Channing Harris served as a delegate to the 64th Japan–America Student Conference, a five-week event where Japanese, Korean, and American students discuss relevant global business topics. The event opens networking opportunities between delegates and students from all over the world.

Being invited to this prestigious conference is a triumph for Roosevelt and Harris. Delegates were competitively selected from universities, and the application process is long and strenuous. “The day I looked at the application, it was due the very same day,” said Harris. “I spent most of the day writing the application.”

In 2011, Harris and a classmate he met in a Roosevelt statistics class started Socks to Your Door, a clothing company for men. He is working on a documentary capturing the hardships and dilemmas of a business college student in today’s economy. Harris also is the founder of a business and entrepreneur club at Roosevelt’s Chicago Campus.

Growing up in Chicago’s North Lawndale neighborhood, Harris finds the Roosevelt community and faculty to be inviting and informative. “Roosevelt is a really friendly university, and that’s probably because it’s generally a small community,” he said. “There’s so much more here than academics.”

Harris graduates in December 2012 and wants to continue his education at Roosevelt.

TEEN ENTREPRENEURSHIP ACADEMY

The Teen Entrepreneurship Academy hosted two, week-long Entrepreneurship Academies this summer. These camps provided high school sophomore and juniors leadership skills, innovative technology-based business skills and life skills that empower young people, and offer them unique opportunities and real-world experiences. The Academy also provided education and support that results in the development of a business plan by each team of students. The winning student team was awarded a scholarship to Roosevelt as well as one college credit in management to Roosevelt University.

40 students were taught and mentored by top entrepreneur CEO’s from companies such as Score Energy, Newbble and Mission 51 Pulse Socks, and networked with many business industry leaders from companies such as City of Chicago, Treasurer’s office, Alliance of Business and Leaders, Chicago Public Schools, Mitchell & Titus and Engage Marketing.

BUSINESS STRATEGY INVITATIONAL: ROOSEVELT BSBA STUDENTS GRAND CHAMPIONS

Congratulations to Heller College undergraduates Matthew Good, Oscar Velarde and Chris Mellender on their grand championship in the Business Strategy Invitational, part of the BSBA capstone course. This online global business strategy competition was held over two weeks in May, with each day representing a year in the simulation for a total of 10 years. The team managed a global athletic footwear company called Hermes, outperforming companies managed by outstanding students at 10 business schools across the world. Each company’s performance was based on a balanced scorecard that included brand image, earnings per share, return on equity investment, stock price appreciation and credit rating. The simulation allowed students to experience what it takes to develop winning strategies in a global marketplace, and the decision making involved under conditions of uncertainty in a dynamic business environment.

Heller College of Business is proud to emphasize applications of classroom knowledge as tools to succeed in a business environment. We hope your participation in the challenge is a valuable experience, as simulations mirror challenges presented in the business world. It reinforces how a multifaceted business education is vital to success.
