A letter from the director….

The fall 2010 Manfred Steinfeld School’s enrollment, both undergraduate and graduate, reached another all time high. Student and industry interest in our curriculum continues. We trust that our students feel that they are growing in terms of their preparation for meaningful careers in the tourism industry.

We launched our courses in *Sports Hospitality*. **Shawn Sullivan**, assistant athletic director at the University of Illinois at Chicago provided instruction and will continue teaching an additional course in spring, 2011. This program is developing well with guidance from a number of sources, especially with the aid of adjunct professor Jonathan Reinsdorf.

Six **Greek students** completed our degree program offered in concert with the European College for Tourism Studies in Corfu, Greece. The program is expected to continue with additional students in spring, 2011. In fact, the Steinfeld School has permission from the Greek government to be the only American university offering the bachelor’s degree and master’s degree in hospitality and tourism in Greece, which is done in concert with our partner institution, ECTS. (See Page 2 for pix of Summer Internship in Corfu.)

The Steinfeld School has had several of **our graduates complete doctorates**, with most of them now teaching. Of course, we have dozens of our master’s degree graduates teaching at the college and university level, locally and throughout the world.

We’ve begun **talks with the South African Consul** about how our program can assist tourism and tourism education in the province of the Northern Cape. The hope is to develop a program there similar to what we are doing in Greece.

**HOSM FACULTY NEWS**

**HOSM Associate Professor William R. Host, Jr., CMP**, as a member of the Standard Review Council, was recognized by the Convention Industry Council (CIC) for his contribution to the latest edition of the APEX Industry Glossary, the most comprehensive guide to terminology in the convention industry. The arduous task of revising the Glossary was praised as a substantial contribution to the convention industry.

**Adjunct Professor Carleton Rogers** received the Educator of the Year 2010 by the International Association of Exhibits and Events (IAEE) in New Orleans.

**Adjunct Professor Myron S. Levy, CHA** was selected by the American Hotel & Lodging Association and the United States Air Force to evaluate hotels that are run by the Air Force on bases about the world. Mr. Levy have participated in this special award program six times in the past 15 years.

The Pineapple: Symbol of Hospitality

When the first Europeans sailed to the ‘New World,’ they returned with this prized sample of the exotic, sweet fruits plentiful in that new land. The Pineapple was the only fruit hearty enough to endure the long transatlantic journey. The fruit was a rarity to be enjoyed only through great hardship and so highly prized, and when shared a very special treat. In time, the representation of a pineapple in decorative carving on gateposts, lintels, etc., became a symbol of welcome and hospitality itself.
