Test Access Log

The **Test Access Log** provides detailed information on student test attempt interactions. Instructors can confirm whether a student began a test or ran into problems during a test.

From within the student’s test attempt:

1. Click on the **yellow down arrows** to expand the “Test Information” area

2. Click on the Access Log which is located directed next to the Time Elapsed Column.

3. View the log and click the x to close the “Test Access Log” box
