

Curriculum Vitae

ARUN L. JADHAV, Ph.D.

Professor of Pharmacology

EDUCATION

- ❖ **Ph.D., Pharmacology, Department** of Pharmacology, Stritch School of Medicine, Loyola University of Chicago, Maywood, Illinois.
- ❖ **Postdoctoral Research**, Department of Pharmacology, University of Texas Medical Branch, Galveston, Texas.

EXPERIENCE

At Roosevelt:

- ❖ July, 2012 –present: Roosevelt University College of Pharmacy – Professor of Pharmacology, Tenure awarded, May 2016.
- ❖ February 2010-June 2012: Roosevelt University, College of Pharmacy, Schaumburg, IL - Associate Dean, Assessment and Accreditation.

At other institutions:

- ❖ Appalachian College of Pharmacy (previously known as University of Appalachia College of Pharmacy), Oakwood, Virginia – Dean, Professor.
- ❖ California Northstate College of Pharmacy, Sacramento, California -Associate Dean for Academic Affairs and Professor.
- ❖ Texas Southern University College of Pharmacy & Health Sciences, Houston, TX – Held following academic and administrative positions:

Faculty positions:

Assistant Professor of Pharmacology and Toxicology

Tenured Associate Professor of Pharmacology and Toxicology

Tenured Professor of Pharmacology and Toxicology

Adjunct faculty Appointment: University of Texas Health Sciences Center, Graduate School of Biomedical Sciences, Houston, Texas, .

Administrative positions

Assistant Provost for Research.

Assistant Dean for Research & Graduate

Director, Graduate Program in Pharmaceutical Sciences

Director, Center for Toxicological Research

TEACHING ACTIVITIES

At Roosevelt U College of Pharmacy

Core Courses

1. PHAR 514: Anatomy, Physiology, & Pathophysiology
2. PHAR 511: Biochemistry II
3. PHAR 530: Integrated Sequence I: ANS
4. PHAR 532 Integrated Sequence III: Endocrine and Pulmonary Systems
5. PHAR 630: Integrated Sequence IV: Disorders of the Renal and Genitourinary Systems
6. PHAR 631: Integrated Sequence V: Disorders of the Cardiovascular System
7. PHAR 633: Integrated Sequence VII: Musculoskeletal and Immune System Diseases
8. PHAR 633: Integrated Sequence VII: Infectious Diseases
9. PHAR 634: Integrated Sequence VIII: Neurological Disorders
10. PHAR 635: Integrated Sequence IX: Psychological Disorders
11. PHAR 636: Integrated Sequence X: Hematological Disorders & Oncology

Electives:

1. PHAR 545: Pharmacological studies of psychoactive drugs and chemicals in zebrafish
2. PHAR 546: Introduction to Psychopharmacology

At Texas Southern University College of Pharmacy

Core Courses

1. Pharmacology & Toxicology (PAS 537 &517), Course Coordinator,
2. Pharmacology & Toxicology (PAS 547)
3. Chemotherapeutics (PAS 539)
4. Toxicology (PAS 520), Course Coordinator
5. Pathophysiology I (PAS 435)
6. Pathophysiology II (PAS 436)

Graduate courses

1. Bioethics (PHS 800), Course Coordinator
2. Advanced Biochemistry (PHS 812), Course coordinator
3. Laboratory Rotation (PHS 801), Coordinator
4. Advanced Pharmacology (PAS 943), Course Coordinator
5. Mechanisms in Toxicology (ES 902), Course coordinator
6. Neurotoxicology (ES 912)
7. Toxicology I (GS 130063) *
8. Toxic Response of the Nervous System
9. Toxicology II (GS 130083) *
10. Toxicology of Pb

*At University of Texas Health Science Center

STUDENT ADVISING AND MENTORING

RU College of Pharmacy:

Co-advisor, Group 7 – 2015 class
Advisor, Group 8 – 2016 class
Advisor, Group 8 – 2017 class
Advisor, Group 8 – 2018 class
Advisor, Group 8 - 2019 class
Advisor, Group 9 – 2020 class

At TSU-COPHS:

Graduate Students supervised:

1. Yokabet Gideon (Ph.D., Environmental Toxicology)
2. Linda Gardiner (Ph.D., Environmental Toxicology)
3. Oluwasanmi Areola, (Ph.D. Environmental Toxicology)

Postdoctoral Fellows:

1. Dr. Subbarao V. Kala
2. Dr. Govindarajan T. Ramesh

GRANTS

At RUCOP:

1) Funding Agency: Roosevelt University College of Pharmacy Intramural Grant

Role: Principal Investigator

Title: A zebrafish model for behavioral neuroscience studies: Innate anxiety responses to novel environments and their modulation by anxiolytics.

Amount: \$3,200

Dates: March 2015

At TSU-COPHS

Multi-project Program grants:

1) **Funding Agency:** Agency for Toxic Substances & Disease Registry, Substance-Specific Research Program - ATSDR: U50/ATU 398948.

2) **Funding Agency:** National Institutes of Health - Program Title: Center for Study of Ethnic Diseases, Dr. Henry Lewis, III, Principle Investigator) -GM 08601

Training Grants:

1) **Funding Agency:** National Institute of Environmental Sciences: Joint Training Program to Support students in Ph.D. in Environmental Toxicology Program (with Univ. of Texas Health Science Center Toxicology Program).

Individual Research Grants

1) **Funding Agency:** Agency for Toxic Substances & Disease Registry, Substance-Specific Research Program - ATSDR: U50/ATU 398948. **Title:** Neurobehavioral Toxicity of Pb.

2) Funding Agency: National Institutes for General Medical Sciences - Minority Biomedical Research Support Program - Multi-Project Program Grant, No. GM-08061-2G12R R03045.

Title: Membrane Na Transport Mechanisms in the Pathogenesis of Hypertension.

3) Funding Agency: U.S. Agency for International Development. Project grant, Grant No. DAN-5053-G-SS-7070-00. **Title:** Development of Antischistosomal Agents

4) Funding Agency: National Heart, Lung, and Blood Institute- KO8, Grant No. HL01707. **Title:** Na Transport Mechanisms in Hypertension

SERVICE TO UNIVERSITY

At Roosevelt:

Chair, College Council, 2016-2018: Major activities: Revised an existing draft of the By-Laws by adding the mandates in the University Constitution and the Faculty Handbook. The structure, function, and procedures of governing and standing committees were added and connected to accreditation, assessment, and the strategic plan. The By-Laws were approved in August 2016. Currently coordinating and Chairing Council meetings focused on implementation of these By-Laws, relevant committee activities, and academic issues.

Chair, Strategic Planning, Program, Assessment and Self Study Steering Committee, 2017-present: Primary responsibilities: Update existing RUCOP Strategic Plan and identify assessment tools, Develop a comprehensive assessment plan for all components of the Pharm.D. program consistent with ACPE Standards, Identify programmatic strengths, weaknesses, and areas in which improvement is needed or desired using Self-Assessment Instrument rubric, Conduct meetings to update progress to College Council and seek Council's approval of the final self-study report prior to its submission to the ACPE, Promote programmatic self-evaluation and continuous quality improvement.

Member, Peer Review Committee, 2016-present: Review dossier of candidates for promotion/re-appointment and tenure, and make recommendations to the Dean.

Member, Student Scholarship Committee, 2014-2015: Review applications/ recommendations for student scholarship awards.

Member, Affiliate Faculty Committee, 2014-2016: Revised eligibility criteria for appointment as affiliate faculty in COP and reviewed application for Affiliate Faculty appointments.

Leader, Task force for Strategic Plan, Goal #1, 2012-14: Developed performance standards for Goal 1 of the Revised Strategic Plan.

Chair, Professional Development Committee, 2012-2014: Lead discussions focused on professional development of new faculty. Surveyed faculty to identify areas for professional development and developed the annual professional development schedule. Made presentation to COP faculty entitled, "NIH and Research Development at RUCOP", and "Academic Research Enhancement Award" grant opportunity.

Chair, Curriculum Committee, 2010-2011: Lead discussions focused on structure and content of a new curriculum. Developed following documents to support these discussions: 1. Curriculum Committee Operating Procedures., 2. Use of a common syllabus template., 3. A checklist for syllabus review., and 4. COP assessment plan.

COP Representative, University Faculty Senate, 2014-2016: Represented COP in the faculty senate.

Member, University Strategic Planning Committee - Task Goal Force 4, 2012-13: Review draft statement relevant strategic goals and objectives prepared by the consultants and make recommendations for changes.

University Planning and Budget Committee, 2010-2014: Represent COP in budgetary discussions, provide updates to the Dean, review budgetary requests and prepare recommendations for the President

University Assessment and Steering Committee, 2010-2012: Represent COP in discussions related to assessment and evaluation. Shared COP assessment activities with the committee.

Member, University Graduate Council and Executive Committee, 2010-2013: Prepared and submitted new course forms for COP courses to the council. Reviewed and approved courses and syllabi.

University Teaching, Learning and Research Technologies group, 2010-2012: Represented COP on discussions related to technology needs and use.

At Texas Southern University:

Chair, Self-Study Committee (2002-06): Developed the self-study report for renewal of accreditation of the pharmacy program by the Accreditation Council for Pharmaceutical Education.

Member, Curriculum Committee (2004-2008): Review curriculum for conformity with Council of American Pharmaceutical Education professional outcomes.

Member, Graduate School Evaluation Committee (2001-2005): Evaluate graduate school functions and operation

Human Subject Committee (2001-03): Review research protocols employing human subjects. Develop guidelines and procedures for review.

Member, Graduate School Executive Committee (1988-1996): Reviewed and revised graduate faculty criteria, reviewed and recommended actions on variety of procedural and policy issues.

Chair, Graduate Education and Research Committee, (1998-2001): Organized and held meetings, and recommended actions on variety issues dealing with development of new graduate programs, and research initiatives.

Member, Graduate Council (1989-1993, 1995-96): Reviewed applications for graduate faculty status, changes in graduate curricula, admissions criteria for graduate programs, and various issues

referred to the Council by the Dean of Graduate School and the graduate faculty.

Member, Executive Council (1991-1996): Reviewed programmatic and administrative matters referred to the Council by the Dean of the College of Pharmacy and made recommendations.

Member, Organized Research Committee (1988-1996): Developed criteria for approval of seed grants. Reviewed and approved applications for seed grants.

Member, Ph.D. in Environmental Toxicology Institutional Advisory Committee (1994-2007): Developed, reviewed, and established criteria for admission and progression of students in the program, reviewed and approved recommendations submitted by the admissions, curriculum, and recruitment committees.

Member, Ph.D. in Environmental Toxicology Curriculum Committee (1994-2002): Developed a 5-year plan of course offerings, developed the joint curriculum for the TSU/UTHCS NIEHS training grant

Chair, Radiation Safety Committee (1990-1994): Reviewed and approved faculty requests for radio-chemicals. Developed a policy & procedures manual for the use of radioactive substances.

Member, Ph.D. in Environmental Toxicology Proposal Development Committee (1990-1993): Developed all components of the application submitted to the Texas State Board of Higher Education seeking approval for the Ph.D. in Environmental Toxicology.

NATIONAL LEVEL PARTICIPATION IN PROFESSIONAL ACTIVITIES

Member, Accreditation Council for Pharmaceutical Education Site Visit Team.

Member, Substantive Change Site Visit Committee for Hampton University, **Southern Association of Colleges and Schools.**

Co-Chair: Behavioral Neurotoxicology Session, 38th Annual Meeting of Society of Toxicology, New Orleans, LA.

Graduate and Research Liaison: American Association of Colleges of Pharmacy,

Review of Scientific Papers: Member, Editorial Board: Toxic Substances Mechanisms

Member, Editorial Board: Toxicology Mechanisms and Methods

Review of Research Proposals: Member, Review Committee: Minority Health Professions Foundation's Initiative on Hypertension, Washington, D.C.

Member, Review Committee: Minority Health Professions Foundation's Initiative on Breast and Cervical Cancer in minority women, Atlanta, GA.

Member, Review Committee: Minority Health Professions Foundation's Initiative: Mississippi Delta Project, Houston, TX.

Liaison: Violence Prevention and Social Policy Institute, Texas Southern University, Houston, Texas.

Panel Member: Funding for Graduate Education, Council of Historically Black Graduate Schools, Princeton, NJ.

Membership in Professional Organizations:

- a. American Association of Colleges of Pharmacy

- b. Past member of:
The American Society of Pharmacology and Experimental Therapeutics
American College of Toxicology
Society of Toxicology
Society of Research Administrators

SCHOLARSHIP

Peer-Reviewed publications

1. Jadhav, A. (2015). Neural substrates of cognitive bias and angiogenesis. *Journal of Systems and Integrative Neuroscience*, 1(1): 2-5, 2015.
2. Jadhav, A. (2011). A model for demonstrating interdependence of mission, vision, strategic and assessment plans, and educational outcomes to increase awareness of these connections among faculty and administrators. *Pharmacy Education*, 11 (1): 183 - 185.
3. Areola O. O. Jadhav, A.L. (2005). Responsiveness of extra-cellular dopamine in the nucleus accumbens to systemic quinpirole and eticlopride is modulated by low-level lead exposure. *Environmental Toxicology & Pharmacology*, 19:323-328.
4. Gedeon, Y., Ramesh, G.T., Wellman, P.J., and Jadhav, A.L. (2001). Changes in mesovorticolimbic dopamine and D1/D2 receptor levels after low level lead exposure: a time study. *Toxicology Letters*, 15:123 (2-3):217-26.
5. Areola O. O. Jadhav, A.L. (2001). Low-level Lead exposure modulates effects of quinpirole and eticlopride on response rates in a fixed interval schedule. *Pharmacology, Biochemistry, and Behavior*, 69:151-156.
6. Ramesh, G.T. and Jadhav, A. L. (2001). Levels of protein kinase C and nitric oxide synthase activity in rats exposed to subchronic low level lead. *Molecular and Cellular Biochemistry*, 223:23-33.
7. Jadhav, A.L., Ramesh, G.T., and Gunasekar, P.G. (2000). Contribution of protein kinase and glutamate in Pb 2+ -induced cytotoxicity. *Toxicology Letters*. 115(2):89-98.
8. Areola O. O. Jadhav, A.L. (2000). Low-level Lead exposure modulates effects of quinpirole and eticlopride on response rates in a fixed interval schedule. *Pharmacology, Biochemistry, and Behavior*. 69:151-156.
9. Ramesh, G.T., Manna, S.K., Aggarwal, B.B. and Jadhav, A.L.(1999). Lead activates nuclear transcription factor NF- κ B, activator protein-1, c-Jun kinase and MAP kinase in pheochromocytoma cells. *Tox. Appl. Pharmacol.* 155(3):280-286.

29. Jadhav, A.L., Townsend, L.D. and Nelson, J.A. (1979). Inhibition of hypo-xanthine-guanine phosphoribosyl transferase. *Biochem. Pharmacol.*, 28: 1057-1062.
30. Jadhav, A.L., Bhansali, K. G. (1979). 6,6'-Azopurine, A potent inhibitor of aldehyde oxidase, *J. Pharm. Sci.*, 68: 1202-1203.
31. Davis, J.R., Jadhav, A.L. and Fareed, J.H. (1974). Substituted Azopurines I: 8'8-Dioxo-6'6 azopurine. *J. Med. Chem.* 17: 639-642.

Presentations at international meetings:

1. Pb-induced cytotoxicity is associated with PKC-mediated oxidative stress. XXXVII European Congress of Toxicology, June 27-30, 1999, Oslo, Norway.
2. Mechanism of Attenuation of Dopaminergic Activity in Nucleus Accumbens of rats exposed to Low Levels of Lead. Fourth International Symposium on Metal Ions in Biology and Medicine, May 19-22, 1996, Barcelona, Spain.
3. Subchronic Pb exposure diminishes in vivo release of dopamine on nucleus accumbens. Vth COMTOX Symposium on Toxicology and Clinical Chemistry of Metals, July 10-13, 1995 Vancouver, Canada.
4. Kidney Dopamine Production and Dopamine Receptor Binding During Increased Sodium Intake. Western Pharmacology Society 1991 Annual Meeting, Jan.27-Feb.1, 1991, Acapulco, Mexico.

5. Interactions between Atrial Natriuretic Peptides and Renal Dopamine during High Sodium Intake. XIIth International Congress of Pharmacology, July 1990, Amsterdam, Netherlands.
6. Alterations in Kidney Dopamine Production and Dopamine Receptors during Increased Sodium Intake. Significance of Peripheral Dopaminergic System in Cardiovascular and Renal Function, Satellite Meeting of the XIth International Congress of Pharmacology, July 8-10, 1990, Essen, West Germany.
7. Kinetic Differences between the Purine Salvage Pathways in Human Red Blood Cells and *Schistosoma mansoni*. VIth International Congress of Parasitology, August 1986, Brisbane, Australia.

Symposia organized and presented:

1. Hypertension in Blacks. Pathophysiology and Treatment, Houston, Texas (Coordinator and Speaker).
2. Health Care Delivery in the Current U.S. Regulatory Environment. Symposium presented by the TTCCPE and Texas Southern University, Apothecary, 92 (5, 6).
3. A Competency-Based Computer Assisted Teaching System in Pharmacology: A mini-symposium presented during the FASEB Annual Meeting (Jadhav, A. L. and Stallings, C).

Continuing education and other seminar presentations:

1. Drug Therapy in the Elderly. TTCCPE Continuing Education Seminar. Annual meeting of the National Pharmaceutical Association, Houston, Texas (Coordinator and Speaker).
2. Drug Therapy in the Elderly. TTCCPE Continuing Education Seminar. Annual meeting of the National Pharmaceutical Association, Houston, Texas (Coordinator and Speaker)
3. Drug Therapy in the Elderly. TTCCPE Continuing Education Seminar, Houston, Texas, April (Coordinator and Speaker).
4. Circadian Rhythms: Implications in Modern Medicine. Space Biomedical Research Institute Lecture Series. Johnson Space Center, Houston, Texas.
5. Introductory Pharmacodynamics and Formulation Considerations. TTCCPE Continuing Education Seminar, Houston, Texas.
6. Introductory Pharmacodynamics and Formulation Considerations. TTCCPE Continuing Education Seminar, El Paso, Texas, March.

Several presentations at professional society meetings- Details can be obtained from FASEB Abstracts.
