

Blackboard Login Instructions

Blackboard uses the same login (NetID) and password credentials that faculty, staff and students use to login to Roosevelt email, RU Access and other Roosevelt systems.

What is your NetID?

- Your NetID is everything before the @ sign in your email
- Example: jdoe01@mail.roosevelt.edu. NetID = jdoe01

Can't remember your NetID password?

- Visit: <https://password.roosevelt.edu>
- Select the Reset icon
- Enter your NetID and select Continue
- Answer two security questions
- Enter your new password
- You should now be able to go directly to Blackboard and login with your NetID and new password

Having trouble?

If you are a new student or faculty member, you may not have set up your security questions yet. This is just a one-time step as follows:

- Visit the same website: <https://password.roosevelt.edu>
- Select the Enroll Icon
- Under Roosevelt Account Registration, follow the directions for student or faculty

If you need further assistance, please email: blackboardhelp@roosevelt.edu.

A member of the Academic Technology Solutions team will assist you.
